

JATIN SAINI

IOS DEVELOPER

JS32640@GMAIL.COM | 8439748407

PROFESSIONAL SUMMARY

iOS Developer experienced in building and shipping production-ready iOS applications using Swift, SwiftUI, UIKit, and MVVM architecture. Experienced in App Store Connect, TestFlight, code signing, certificates, provisioning profiles, and production deployment. Skilled in REST API integration, Firebase, localization, reusable UI components, debugging, and performance optimization. Collaborates with UI/UX designers, QA engineers, and backend developers to deliver scalable, stable, and user-focused iOS applications.

SKILLS

Technical Skills : Swift, SwiftUI, UIKit, Core Data, REST APIs, MVVM architecture, Combine framework
Async await concurrency

Mobile App Delivery : App Store release management, TestFlight build distribution, Provisioning profiles, App signing, Localization, Firebase Authentication

Product Quality & Release: Firebase integration, Push notifications, Reusable UI components, Performance optimization, Cross-functional collaboration

PROFESSIONAL EXPERIENCE

IOS Developer, Zapplogics Solution LLP

September 2025 - Present

- Manage iOS app releases and App Store submissions through App Store Connect, including code signing, certificates, provisioning profiles, TestFlight builds, production deployments, and App Review follow-ups.
- Develop and maintain production-ready iOS applications using Swift, SwiftUI, UIKit, and MVVM architecture.
- Integrate REST APIs and Firebase services, including Authentication, Firestore, Storage, Analytics, and Push Notifications.
- Develop reusable UI components and shared modules while performing debugging, testing, and performance optimization to improve code quality, application stability, and user experience.
- Collaborate with UI/UX designers, QA engineers, backend developers, and cross-functional teams throughout the software development lifecycle.

IOS Developer, Intern, Rudra IT Network

Jul 2025 - Aug 2025

- Developed and maintained the Asuaaq Marketplace iOS application using Swift, SwiftUI, and MVVM architecture.
- Integrated REST APIs and Firebase services to support application features, data management, and backend communication.
- Implemented English and Arabic localization to support multilingual users and improve accessibility.
- Debugged and resolved SwiftUI, MVVM, API integration, and application stability issues, while improving performance, usability, and code maintainability through testing and continuous enhancements.

EDUCATION

Bachelor of Computer Applications (BCA)

June - 2025

Chaudhary Charan Singh University, Meerut

- Focused on computer programming, software engineering, database systems, and application development.
